

### **Short Description:**

Portable video grabber to capture your HD video source. Bring it with you and connect it to any laptop, notebook or desktop with a USB port. No driver installation required - simply connect and capture!

:

### **No software installation required**

AV.io HD is a video capture device that doesn't require drivers to be installed on your computer—it's as simple as using a webcam! Windows, Mac and Linux operating systems will automatically detect AV.io HD ensuring compatibility with your favorite software.

### **Easy to connect and share**

Required adapters and cables for HDMI, DVI or VGA devices are included with your AV.io HD — simply connect your device and start sharing. Supports brightness, contrast, horizontal and vertical shift adjustments for perfect capture from VGA sources.

### **Simple to use**

*AV.io HD automatically takes care of scaling and aspect ratios, so you don't have to!*

## Full HD video capture at 60 fps

AV.io HD transfers uncompressed video to your computer or laptop in beautiful Full HD at 60 fps with near-zero latency.

## Audio capture over HDMI

In addition to capturing video content, AV.io HD also captures audio from your HDMI source.

## Worry-free, automatic scaling and aspect ratios

AV.io HD *automatically* adjusts video scaling and aspect ratios based on your application's requirements, providing you fantastic video quality — even when swapping video sources.

## Bring it anywhere — Rugged • lightweight • portable

## A portable travel companion for your video source

AV.io HD fits in your hand and is lightweight enough to travel with you anywhere you need to share video.

## Video grabber that is built to last

Like all Epiphan products, AV.io HD is designed to be strong, durable and rugged enough for daily use (some of our products are even [used in space!](#)). AV.io HD features robust connectors designed for reliable and repeated long-term use.

## Powered over USB

Power-on your AV.io HD by simply plugging it into your computer's USB port - no AC power connections required!

## **No distractions, noiseless operation**

No internal fans or moving parts means AV.io HD is silent and will not distract from your video capture, streaming or recording experience.

Built to last, AV.io HD features robust connectors and an all-aluminum enclosure. It's durable and small enough to be taken anywhere you need to share video!
